Subject: Draft executive summary for the Portland Harbor baseline ecological risk assessment for your review
[EPA draft BERA executive summary to LWG 121412.docx](#)

Jim, John,

Chip Humphrey asked me to share with you this draft of the revised executive summary for the Portland Harbor BERA. You'll notice that it is written much more as a stand alone document than the previous text. In addition to serving as the executive summary, the draft is intended to serve as a BERA summary that could be distributed to the CAG, the public or others interested in a BERA summary. For those interested in more information or details, the draft contains pointers to specific sections of the BERA. I've left on comments so you can see several areas that may be worthy of additional discussion.

I should be in the office all next week if you have questions or comments.

Best regards,

Burt Shephard
